Financial Audit Division

The Office of the Legislative Auditor (OLA) is a professional, nonpartisan office in the legislative branch of Minnesota state government. Its principal responsibility is to audit and evaluate the agencies and programs of state government (the State Auditor audits local governments).

OLA's Financial Audit Division annually audits the state's financial statements and, on a rotating schedule, audits agencies in the executive and judicial branches of state government, three metropolitan agencies, and several "semi-state" organizations. The division also investigates allegations that state resources have been used inappropriately.

The division has a staff of approximately forty auditors, most of whom are CPAs. The division conducts audits in accordance with standards established by the American Institute of Certified Public Accountants and the Comptroller General of the United States.

Consistent with OLA's mission, the Financial Audit Division works to:

- Promote Accountability,
- Strengthen Legislative Oversight, and
- Support Good Financial Management.

Through its Program Evaluation Division, OLA conducts several evaluations each year.

OLA is under the direction of the Legislative Auditor, who is appointed for a six-year term by the Legislative Audit Commission (LAC). The LAC is a bipartisan commission of representatives and senators. It annually selects topics for the Program Evaluation Division, but is generally not involved in scheduling financial audits.

All findings, conclusions, and recommendations in reports issued by the Office of the Legislative Auditor are solely the responsibility of the office and may not reflect the views of the LAC, its individual members, or other members of the Minnesota Legislature.

Report Summary

Audit Conclusions:

- We issued an unqualified opinion on the financial statements of the Supplemental Investment Fund and the Post Retirement Fund for the year ended June 30, 2005.
- We issued a Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Governmental Auditing Standards*. We did not report any material weaknesses involving the internal control over financial reporting and its operation or noncompliance that would be required to be reported under *Government Auditing Standards*.

Background Information:

The Minnesota State Board of Investment (SBI) manages the investment of retirement fund assets of the Minnesota State Retirement System, Teachers Retirement Association, and the Public Employees Retirement Association, as well as idle cash of other state agencies. At June 30, 2005, the market value of all assets was \$50.5 billion. SBI uses both internal staff and external money managers to fulfill its responsibilities. The external firms invest and manage the assets of the retirement funds and the assigned risk plan. SBI staff manage the other state investments.

Minnesota State Board of Investment

We have audited the financial statements of the Supplemental Investment Fund and the Post Retirement Investment Fund of the Minnesota State Board of Investment as of and for the year ended June 30, 2005, and have issued our report thereon dated January 13, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Minnesota State Board of Investment's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Minnesota State Board of Investment

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Minnesota State Board of Investment's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the Legislative Audit Commission and the Minnesota State Board of Investment and is not intended to be and should not be used by anyone other than these specified parties.

Status of Prior Audit Issues As of January 13, 2006

Most Recent Audit

January 21, 2005, Legislative Audit Report 05-02 covered the fiscal year ended June 30, 2004. The audit scope included the investment functions material to the State of Minnesota's financial statements, and the Supplemental Investment Fund and the Post Retirement Investment Fund financial statements included in the Minnesota State Board of Investment's (SBI) Annual Report. We audit SBI on an annual basis. There were no reportable issues in that report.

State of Minnesota Audit Follow-Up Process

The Department of Finance, on behalf of the Governor, maintains a quarterly process for following up on issues cited in financial audit reports issued by the Legislative Auditor. The process consists of an exchange of written correspondence that documents the status of audit findings. The follow-up process continues until Finance is satisfied that the issues have been resolved. It covers entities headed by gubernatorial appointees, including most state agencies, boards, commissions, and Minnesota state colleges and universities. It is not applied to audits of the University of Minnesota, any quasi-state organizations, such as metropolitan agencies or the State Agricultural Society, the state constitutional officers, or the judicial branch.
