

Environmental Review Questionnaire Project Proposers

At the direction of the Minnesota Legislature, the Office of the Legislative Auditor is evaluating Minnesota’s processes for environmental review and permitting. We are especially interested in learning more about your recent experiences with projects undergoing environmental review, for which environmental assessment worksheets (EAWs), scoping EAWs, or draft or final environmental impact statements (EISs) were prepared. In this questionnaire, we refer to these documents as “environmental review documents.”

If you have proposed multiple environmental review projects in the last two years, base your answers on your experience with the XXXXXX project. Space for your comments is available at the end.

Your name will not be made public. We will not report individual responses that include identifying information.
